

JURYSCOPE™

OUR PREFERRED VENDORS

In JuryScope's 25+ years of experience, we have worked with many trial assistance professionals. JuryScope has a good working relationship with, and recommends, the following service providers.

Courtroom Visual specializes in utilizing presentation software (TrialDirector) and technology in the courtroom. Our expertise also includes demonstrative graphics, especially custom timelines.

With over 25 years of experience, **Granbury Multimedia** has the expertise for providing complete audio/visual support for mock trials, focus groups and pre-trial testing of legal cases across Texas. We have the full capability of setting up closed-circuit viewing, video documentation, presentation equipment and duplication services. No job is too large or too small. In addition to providing every area of technical support, we can also provide hostessing services as well and all of this at affordable rates.

VisuaLex is a full service litigation consulting firm with over 20 years experience in creating and displaying visual presentations for all types of litigation. We specialize in transforming key case information into strategic visual communication. The development of demonstratives for every matter we work on is rooted in an understanding of human learning theory and an appreciation for good design. Our passion for clarity and precision in the presentation of information sets us apart from our competitors. At VisuaLex, we make the complex clear, which is why some of the most prominent litigators continue to partner with us. Experience the VisuaLex difference on your next matter—we welcome the opportunity to exceed your expectations.
